

A vibrant cosmic background featuring a dense field of stars in various colors (blue, red, yellow) and a prominent nebula with swirling patterns of orange, yellow, and blue. The overall scene is set against a deep black space.

**Unlocking the
Mysteries
of Genesis.**

An aerial photograph of a rugged coastline. The scene shows steep, rocky cliffs in shades of brown and tan, some with patches of green vegetation. A small bay or inlet is visible, with a sandy beach and a small, dark rock formation in the water. The sky is filled with soft, white clouds, and the overall lighting suggests a late afternoon or early morning setting with a warm, golden glow.

2 Peter 3:3-6

³Knowing this first: that **scoffers will come in the last days**, walking according to their own lusts, ⁴and saying. “Where is the promise of His coming? **For since the fathers fell asleep, all things continue as they were from the beginning of creation**” ⁵For this they willfully forget: that by the word of God the heavens were of old, and the earth standing out of water in in the water, ⁶**by which the world that then existed perished, being flooded with water** (emphasis added).

UNIFORMITARIANISM:

THE DOCTRINE THAT PROCESSES
THAT OPERATED IN THE REMOTE
GEOLOGICAL PAST ARE NOT
DIFFERENT THAN THOSE
OBSERVED NOW.

CATASTROPHISM:

THE DOCTRINE THAT CERTAIN VAST GEOLOGICAL CHANGES IN THE EARTH'S HISTORY WERE CAUSED BY CATASTROPHES RATHER THAN GRADUAL EVOLUTIONARY PROCESSES.

UNIFORMITARIANISM
CATASTROPHISM

Genesis 7:19 & 21

¹⁹And the waters prevailed exceedingly on the earth, and all the high hills under the whole heaven were covered. ²¹And all flesh died that moved on the earth: birds and cattle and beasts and every creeping thing that creeps on the earth, and every man (emphasis added).

An aerial photograph of a rugged coastline. The scene features steep, rocky cliffs in shades of brown and tan, some with patches of green vegetation. A sandy beach curves along the base of the cliffs, meeting a calm, blue bay. The water transitions from a light turquoise near the shore to a deeper blue further out. The sky is filled with soft, white clouds, suggesting a bright but slightly overcast day. The overall atmosphere is serene and majestic.

Genesis 8:3

³and the waters **receded** continually from the earth. At the end of the hundred and fifty days the waters decreased.

Tonight's Big Idea

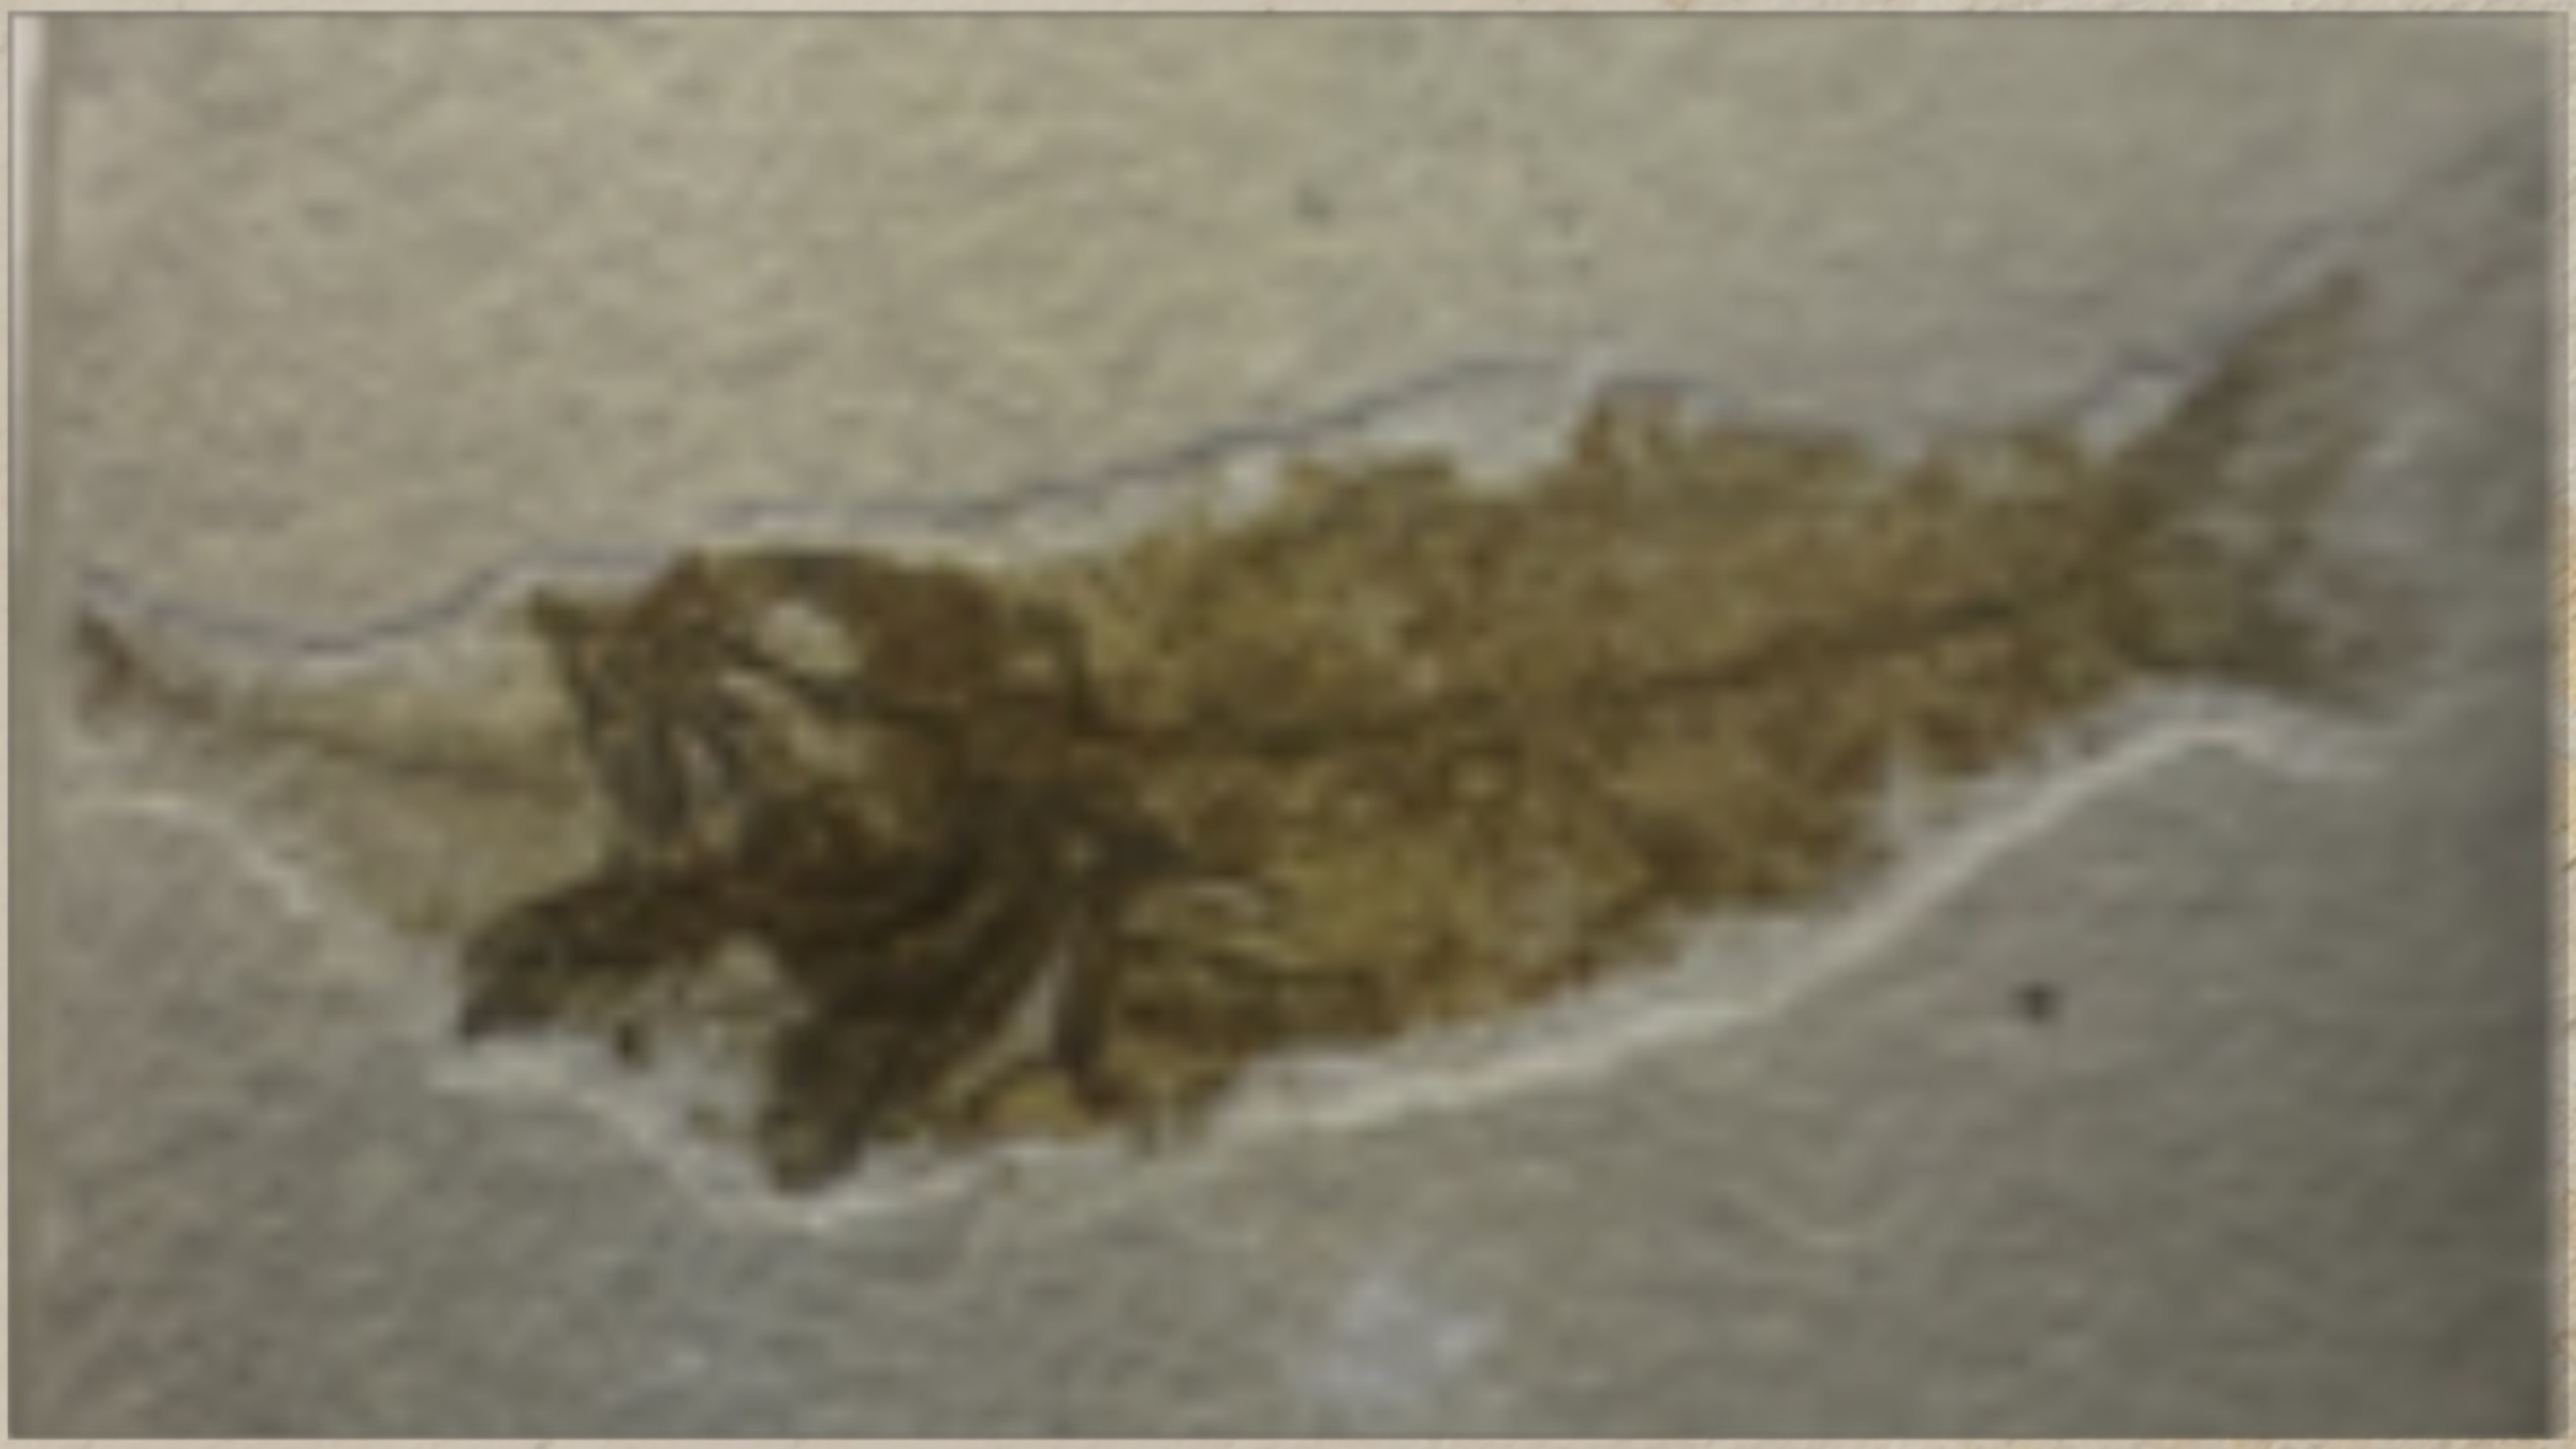

The Fossil record provides evidence for a great flood and supports the Bible's history.

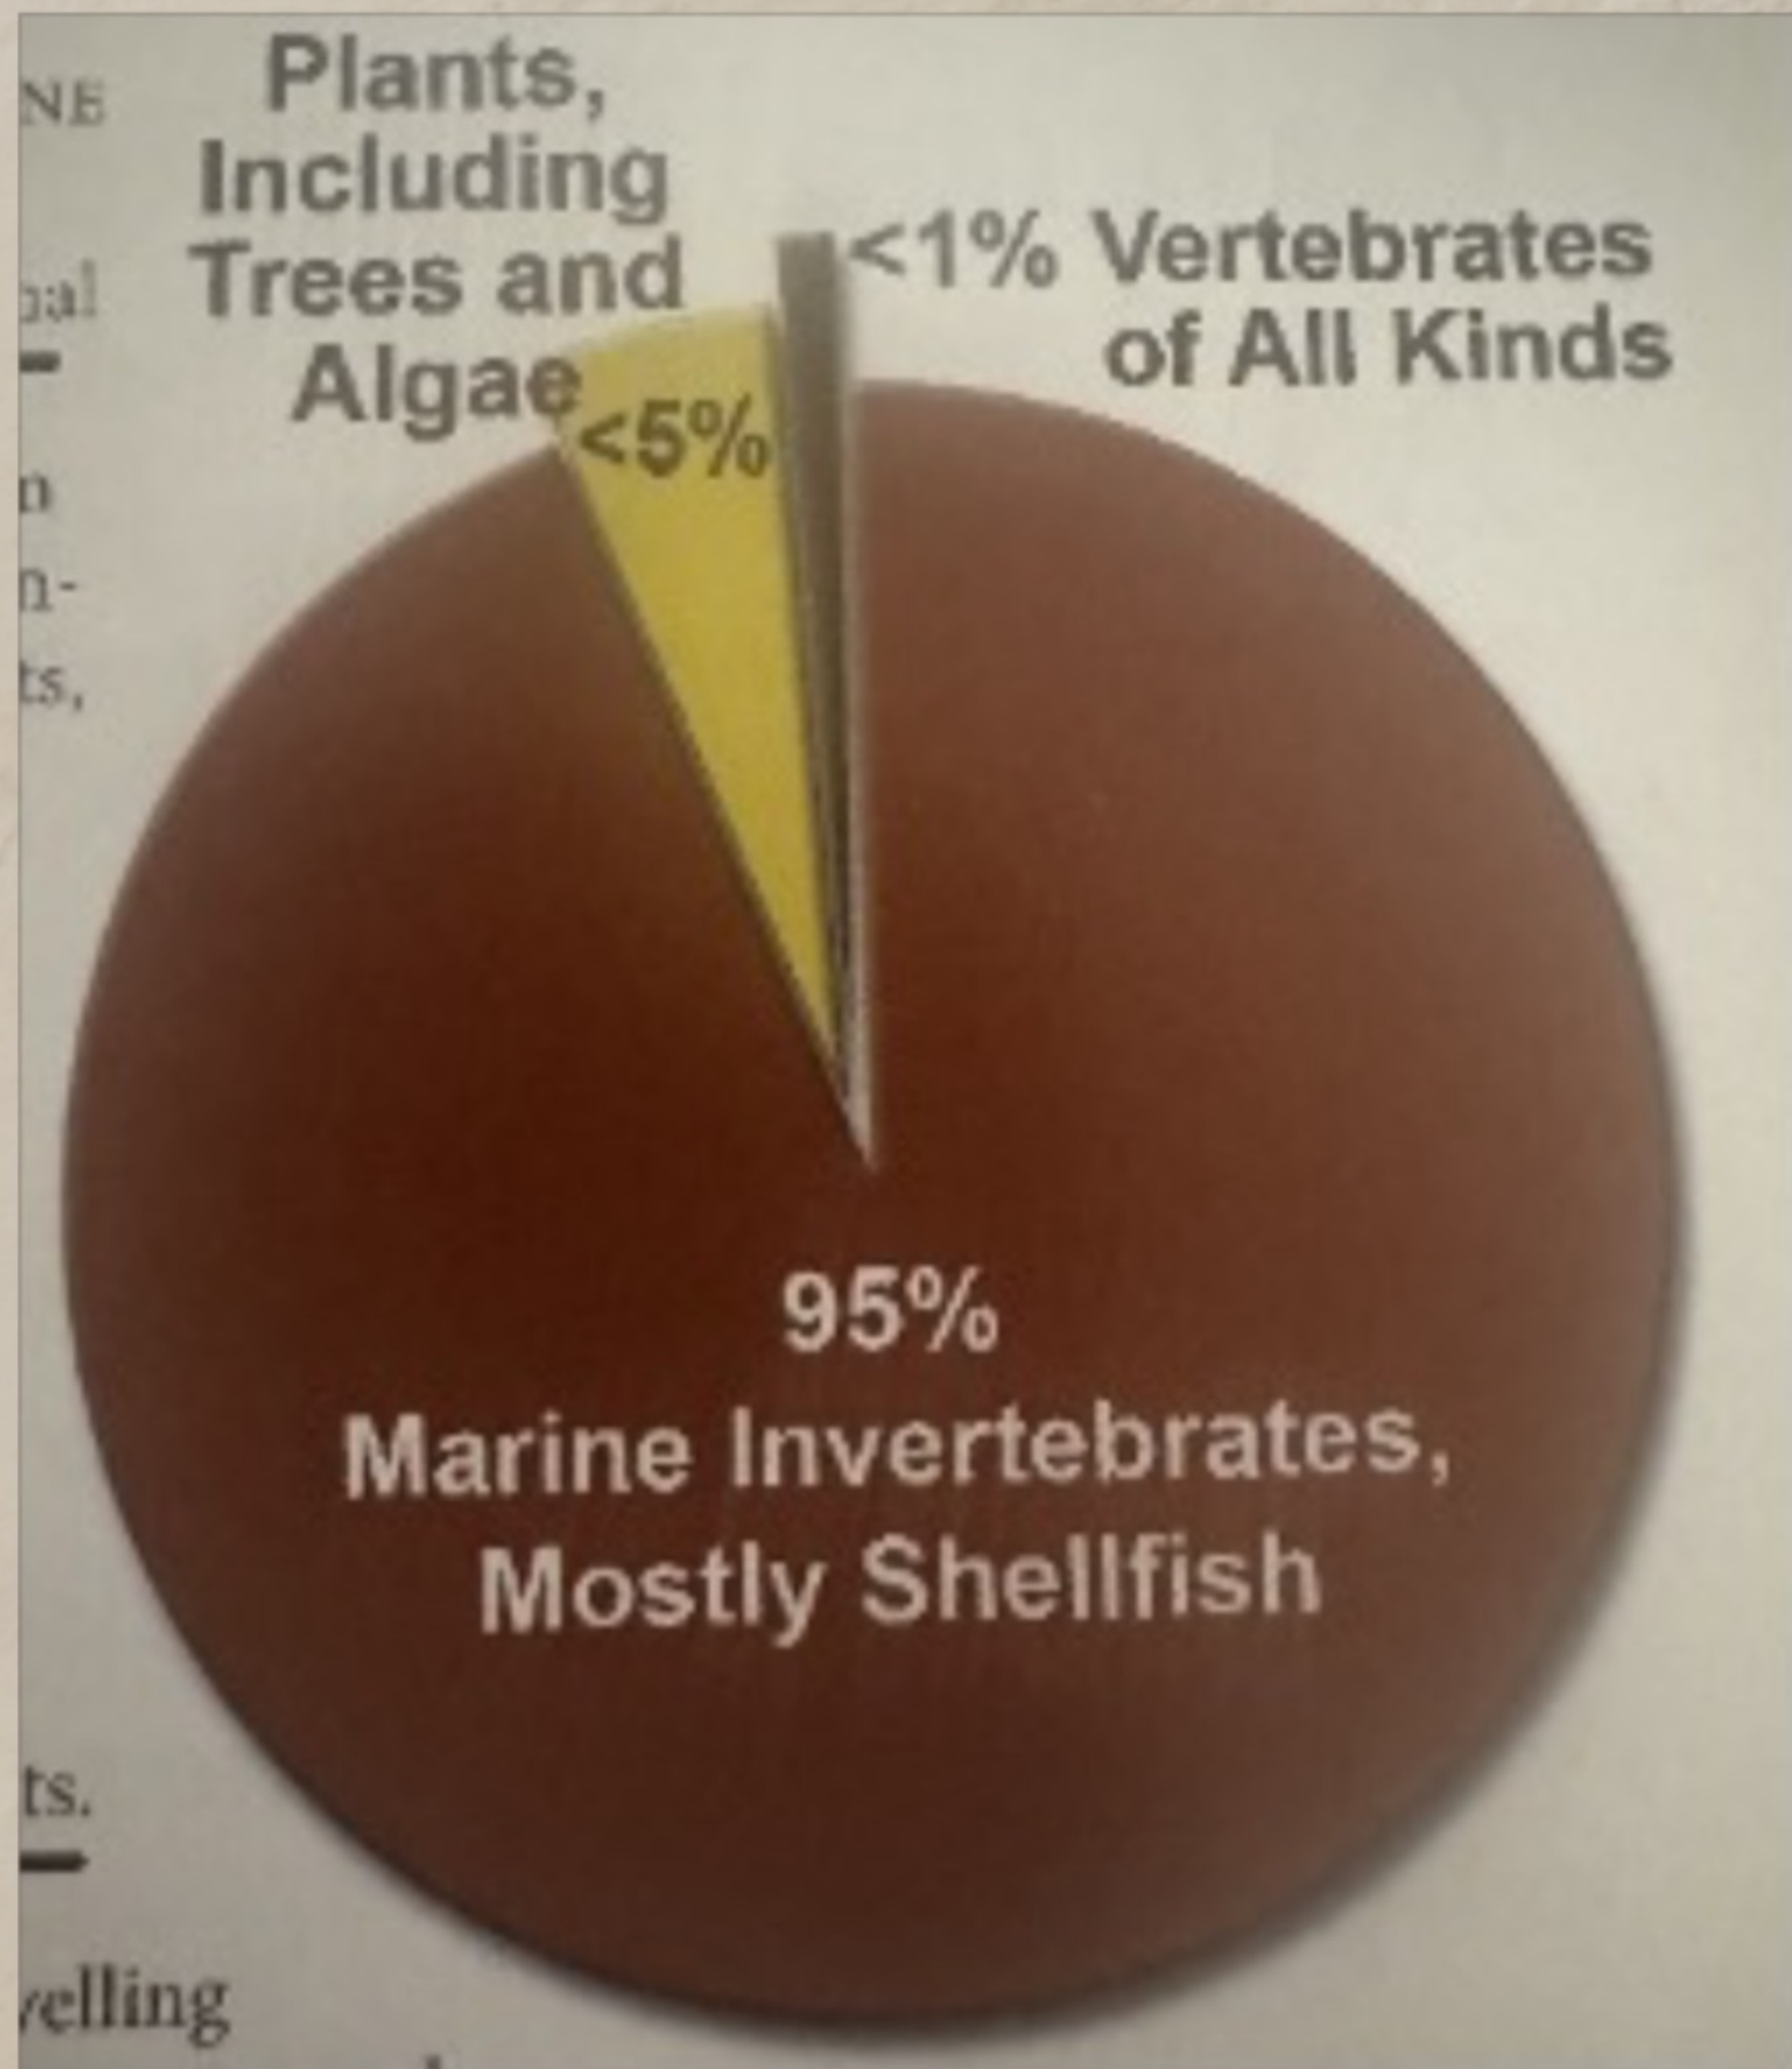

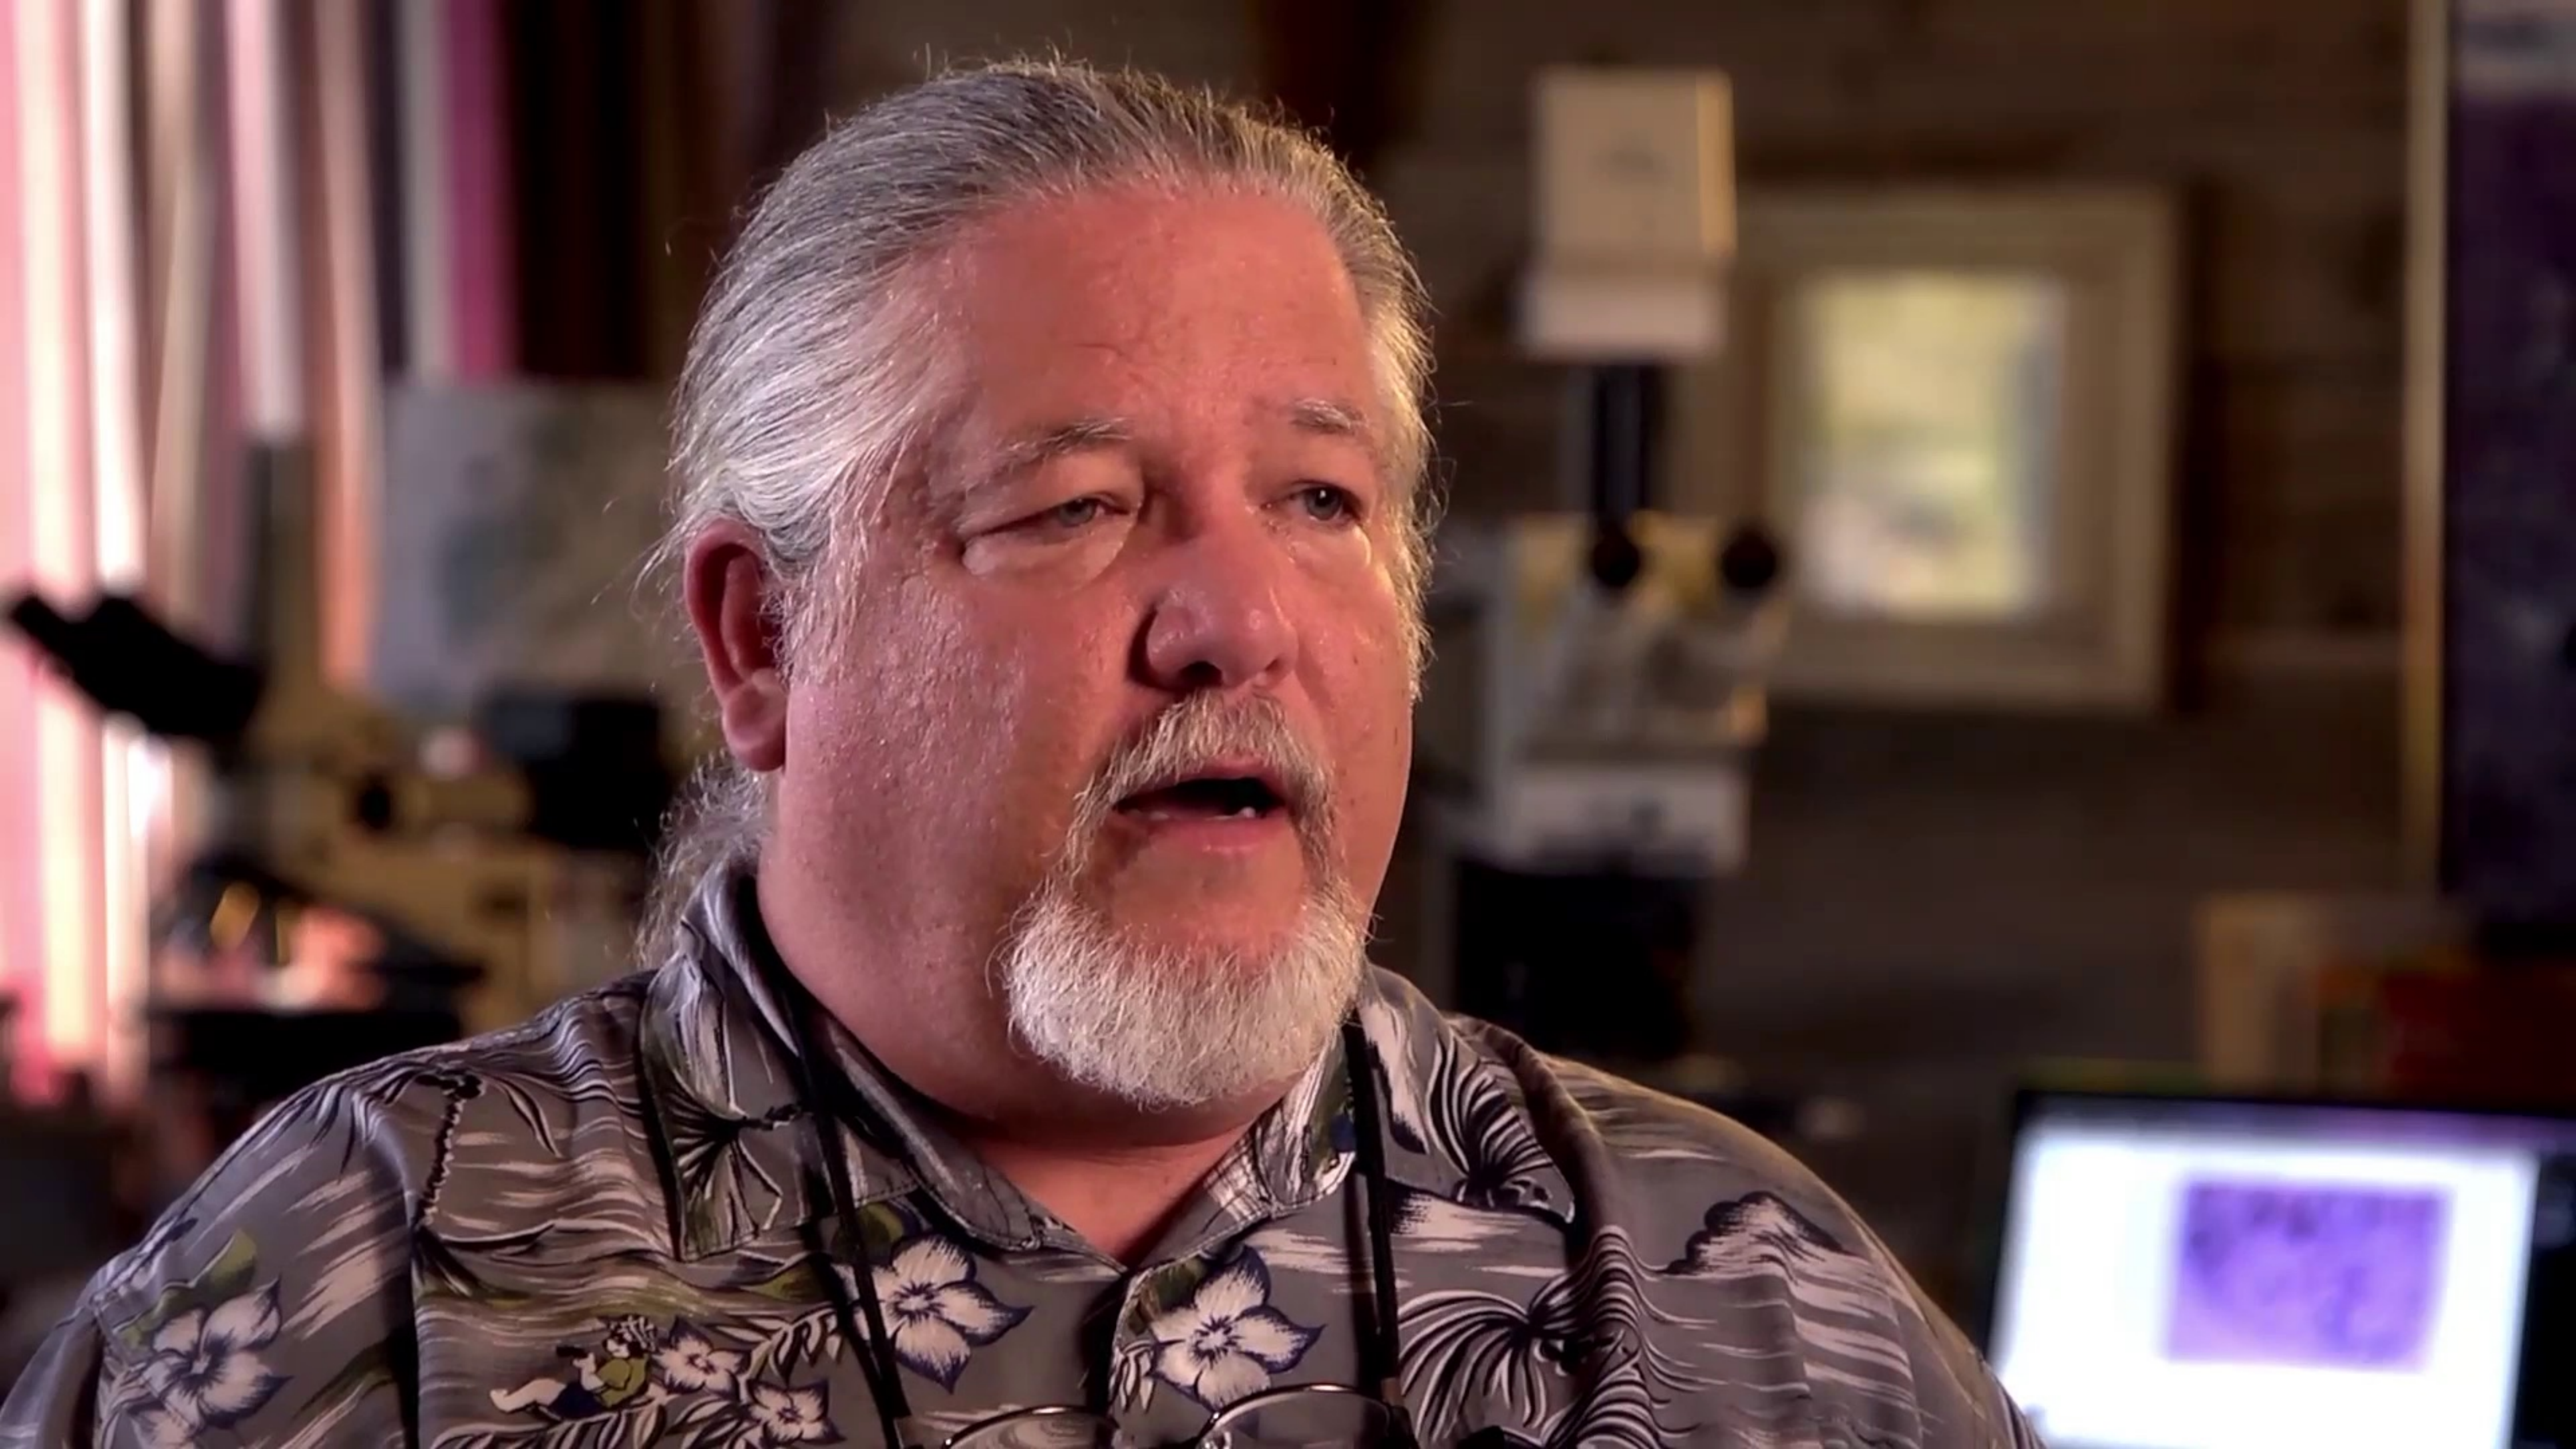

A fossilized insect in the matrix of rock, reflecting what has
likely been in evidence.

Fossils in this chart likely formed during the year-long Flood of Noah's day. Local catastrophes during the post-Flood Ice Age deposited other soft tissue fossils. Those who insist on millions of years have no credible explanation for these soft tissue discoveries.

The evidence shows

- Massive Mudflow
- Instantaneous Burial
- Rapid, Wholesale Devastation
- Death on a Global Scale

Matthew 24:38-39

³⁸For as in the days before the flood, they were eating and drinking, marrying and giving in marriage, until the day that Noah entered the ark, ³⁹and did not know until the flood came and took them all away, so also will the coming of the Son of Man be.

Colossians 1:6

Beware lest anyone cheat you through philosophy and empty deceit, according to the tradition of men, according to the basic principles of the world and not according to the Christ.

Next Time's Big Idea

Lesson 5 Flood or Fiction

The bible's record of Noah's flood is more than a legend – it's a true account supported by scientific evidence
